# **Multinational Medical Coordination Centre - Europe Lines of efforts in medical support in Europe**

**Prague, 29 November 2023**

## Main offers of MMCC-E to Nations and NATO/EU

In line with NATO policy and doctrine, MMCC-E intends to become an official supporting entity in the field of Medical Support for NATO and EU.

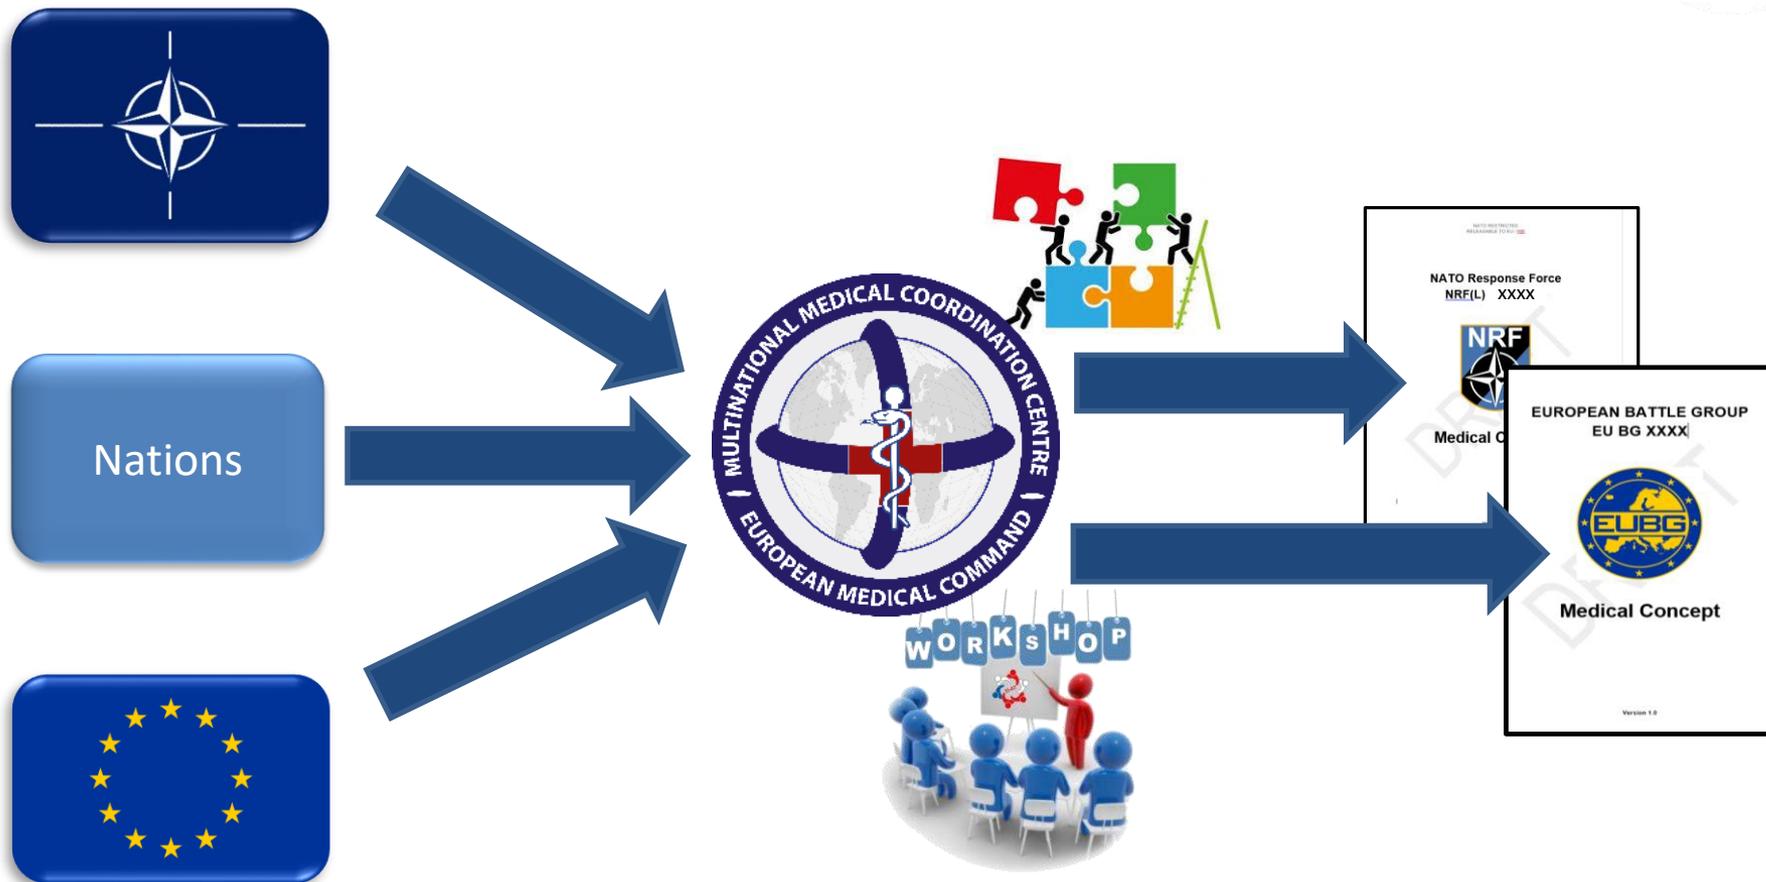

MMCC-E acts complementary to existing NATO / EU structures. The work of the MMCC-E supports the readiness and interoperability efforts of the nations within the framework of alliance defense.

MMCC-E provides coordinating efforts and outputs with direct operational effect in the following core tasks for the **nations** and NATO/EU standing military Command and Control structures in the area of medical support:

- **Supporting multinational medical coordination efforts**
- **Improving readiness of medical C3 and preparedness** through exercising and wargaming;
- **Improving medical civil-military interaction** and networking;
- **Coordinating medical capability enhancement** on request of nations and organizations.

- Testing of Enablement Support Services (ESS) MEDSUITE / Medical Management prototype in spring 2024;
- NATO Advanced Medical Staff Officer Course in cooperation with EST/NLD;
- Force Building Medical Task Force EU Battle Group and EU Rapid Deployment Capability 2025

## Benefit and Value

- As a permanent and operational institution with a high responsiveness, the MMCC-E strengthens the cooperation between the participating nations.  
Thus, it helps paving the way to finding joint and multinational solutions, i.e. burden-sharing through cooperation;
- Thanks to its coordinative capabilities and network of experts, the MMCC-E can generate synergies with its multinational projects;
- MMCC-E serves as a platform for civil-military medical interconnectivity in Europe;
- MMCC-E facilitates the interoperability between the Medical Services of the participating nations and is improving the operational readiness of medical units and staff through exercises like wargaming;
- MMCC-E is facilitating multinational medical support solutions and medical projects which increase availability, flexibility, readiness and sustainability of the MMCC-E participating nations' military health care systems.

# MMCC-E new possible logo proposed on SC Meeting in Brussels, 21-22 Nov 2023

# THANK YOU VERY MUCH FOR YOUR ATTENTION
